

Introducing | A New Heat Transfer Vinyl

Lumina® QuickPress (9010 Series) is an all new heat transfer vinyl (HTV) designed to unlock your potential. This special adhesive activates at 260° and takes only 5 seconds to bond, which opens up more fabric possibilities than most other HTV alternatives.

This adhesive has a hot or cold separation/peel that is also resistant to washing. You can immediately peel the carrier away for instant results. Lumina® QuickPress is suitable for use on cotton, polyester, mixed textiles, "technical textiles", performance wear, spandex/elastane and more!

Add your own flare - quicker than ever.

**Quick.
Easy.
And To The Point.**

**260°
Application**

**5-Second
Press Time**

**Applies To
Multiple Fabrics**

**Polyester
Safe**

Product/Technical Specs:

Film Technology | Polyurethane
Application Temp | 260° F
Application Time | 5 seconds
Film Thickness | 3.5 mil
Blockout | Yes
Outdoor Durability | N/A
Adhesive / Color | Permanent
(Heat Activated) Clear

Liner | Pressure Sensitive PET
Computer Cut | Yes
Steel Rule | Yes
Flat Bed | Yes
Sheetable | Yes
Laminate | No
Shelf Life | 2 years

Printing | No
Pressure | Medium
Washability | Excellent
Width Offered | 12", 15"
Lengths Offered | 10 yd, 50 yd,
(sheeting available upon request)
Certifications | REACH Compliant

Applies On

- Cotton
- Cotton Blends
- Polyester
- Spandex
- Poly Blends
- Tri Blends
- Rayon
- Elastic Fibers/Stretch Materials

(For ultimate stretch HTV film, consider Lumina® 9004 Stretch Opaque Series)

Care

- Always make sure that you follow the garment's instructions.
- Do not wash your finished products for up to 24 hours post-application.
- If you are hand ironing make sure to only iron the backside of the graphic.
- Machine wash in warm water with a mild detergent and air dry. Do not bleach.

Application Steps

1. Get creative with your designs!
2. Cut your Lumina® QuickPress material in reverse! (Make sure you use a 45° blade!)
3. Line up your design, place your protectant cover on top and press away!
4. Lumina® QuickPress is a hot or cold peel, giving you the option to peel the carrier off right away!
