

Introducing | Lumina[®] Premium Wall Fabrics & Canvas

FDC has expanded the offering of wall covering options to include three new products. Each product is digitally printable using solvent, eco-solvent, UV and latex ink technologies. All of the products are available in three finishes: matte white, gold, and silver. In this product series, the offering consists of both adhesive

and non-adhesive backed options. All of the adhesive-backed products are contour cut ready. Printers and designers can add an extra pop to their digital prints by utilizing the silver and gold colors. Each color is slightly metallic to create a one-of-a-kind look that will be sure to grab every viewer's eyes.

Product and Technical Specs

7337 | Premium Wall Fabric

Lumina® 7337 Series is a digitally printable, polyester fabric that is ideal for application to interior walls. This film is backed with a repositionable, removable adhesive that can be applied to a non-porous substrate. It can be removed without damaging walls or removing paint while leaving minimal residue. This product is available in Matte White (049) and also features a metallic finish in colors of Gold (004) and Silver (007) that will make prints pop.

Film Technology | Acrylic Coated Polyester
Film Thickness | 10 mil

Finish | Matte
Blockout | N/A
Adhesive / Color | Permanent/Clear

Liner | Kraft paper
Conformability | Flat surfaces, simple curves
Printable* | E, S, L, U

7338 | Adhesive Backed Canvas

Lumina® 7338 Series is a heavy-weight, wide-format, acrylic-coated, polyester-woven fabric designed for digitally printable wall coverings. This product features a removable and repositionable adhesive designed for installation on flat surfaces. Common substrates include painted drywall and glass. This product's weight and rigidity minimizes show-through of substrate imperfections. This product is available in Matte White (049) and also features a metallic finish in colors of Gold (004) and Silver (007) that will make prints pop.

Film Technology | Acrylic Coated Polyester
Film Thickness | 17 mil

Finish | Matte
Blockout | N/A
Adhesive / Color | Permanent/Clear

Liner | Kraft paper
Conformability | Flat surfaces, simple curves
Printable* | E, S, L, U

7339 | Non-Adhesive Backed Canvas

Lumina® 7339 Series is a heavy-weight, wide-format, acrylic-coated, polyester-woven fabric designed for digitally printable wall coverings. This product does not feature an adhesive and can be used in various framing systems, including silicone-edge systems and stretch frames. This product is available in Matte White (049) and also features a metallic finish in colors of Gold (004) and Silver (007) that will make prints pop.

Film Technology | Acrylic Coated Polyester
Film Thickness | 17 mil

Finish | Matte
Blockout | N/A
Adhesive / Color | N/A

Liner | NA
Conformability | Flat surfaces
Printable* | E, S, L, U

*Printable Key: (E) Eco-Solvent | (S) Solvent | (L) Latex | (U) UV Curable

Need an additional sample?

FDC Graphic Films, Inc. has a full sample program for color matching and testing product out before you buy, and it is simple to use!
