

COUNT ON US

To Whom It May Concern:

Product: Lumina 2100 Series

FDC Graphic Films, Inc. declares that the following products supplied as sign fabrication materials do not contain any of the listed substances and comply with the Commission Delegated Directive (EU) 2015/863 of March 31, 2015 amending Annex II to RoHS Directive 2011/65/EU (Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment).

This declaration applies to the following:

- Lumina 2100 Series: Premium High Performance Vinyl

The hazardous and restricted substances in the RoHS 3 directive are outlined in Annex II (OJ:L137/10/2015) with maximum concentration values tolerated by weight to homogeneous materials. They are:

C No.	Substance	CAS #	Threshold Level	FDC Status
A05	Cadmium / Cadmium Compounds	7440-43-9	100 ppm	OK
A07	Hexavalent Chromium Compounds (CrVI)	18540-29-9	1000 ppm	OK
A09	Lead / Lead Compounds (Pb)	7439-92-1	1000 ppm	OK
A10	Mercury / Mercury Compounds	7439-97-6	1000 ppm	OK
B02	Polybrominated Biphenyls (PBB)	-	1000 ppm	OK
B03	Polybrominated Diphenylethers (PBDE)	-	1000 ppm	OK

C11	Bis(2-ethylhexyl)phthalate (DEHP)	117-81-7	1000 ppm	OK
C12	Butyl benzyl phthalate (BBP)	85-68-7	1000 ppm	OK
C13	Dibutyl phthalate (BBP)	84-74-2	1000 ppm	OK
C14	Diisobutyl phthalate	84-69-5	1000 ppm	OK

Please be advised that FDC does not routinely analyze our products for the substances listed above as part of our quality control.

We expect that this letter should answer your concerns with regard to the current status of the product FDC supplies to you in relation to RoHS Directive 2011/65/EU.
