FOR IMMEDIATE RELEASE

FDC Graphic Films, Inc. added nine new patterns to the Lumina® 9203 Series of heat transfer vinyl film.

9 New Patterns of Lumina® 9203 Now Available From FDC Graphic Films, Inc.

SOUTH BEND, Ind. (September 29, 2020) — FDC Graphic Films, Inc. added nine new pre-printed patterns of the heat transfer vinyl film, Lumina® 9203.

Each of the new patterns is now available, including Aztec, banner stripes, sky quatrefoil, US flags, stars, soccer ball, mint argyle, black quatrefoil, and mint petals. The Lumina® By FDC brand is known for providing choices at a great value such as this.

Lumina® 9203 features a matte finish with unique printed patterns for decorative graphics that are great for garment decorators, crafters, and do-it-yourselfers.

Unlike other products on the market, these films do not require a separate mask for application, which saves time and money. This series can be applied to cotton, polyester, and poly/cotton blends at 315° F for 15 seconds.

The patterns are available in sheets and 15” by 5-yard rolls. As part of FDC’s sheeting program, distributors can order custom sizes, variety packs, and much more.

Additional Lumina® HTV patterns include animal prints, camouflage, and slightly textured films.

Request a sample of one of the 21 total patterns by contacting FDC at 800-634-7523 or orders@fdcfilms.com.

For more information, visit www.fdcfilms.com and search “9203.”

ABOUT FDC GRAPHIC FILMS, INC.

Founded in 1988, FDC is one of the sign-making industry’s leading converter and suppliers of sign vinyl films, digital media, overlaminates, banners, and heat transfer films with warehouses and converting facilities in both South Bend, Indiana, and Reno, Nevada. The company markets, converts and distributes leading brands such as Lumina®, 3M, ASLAN, and RTape exclusively through distribution channels. FDC’s 120 employees serve more than 1,000 customers in all 50 states and Canada. Learn more at www.fdcfilms.com.
