

3521 | Promotional Fluorescent Vinyl Film

Lumina[®] by FDC 3521 is a promotional-grade cast fluorescent vinyl film designed for producing automotive aftermarket windshield graphics and accent stripes, retail window signage, trade show exhibits, point-of-purchase displays, die-cut letters and numbers, and screen-printed decals requiring short-term outdoor durability.

This series features a unique colorant system for superior visual appeal and exceptional opacity, providing dynamic graphics accents.

Interior use or limited exterior use is suggested as the fluorescent pigments used in this film will fade with UV exposure.

**Eye-catching
vibrant style.**

High Visibility

High Gloss Finish

High Conformability
