Top Product Benefits

900+

Design Flexibility
Select from 900+ architectural finishes, more than layer, die-cut or customize a variety of films to meet your design needs — the possibilities are endless.

Remodel and Reuse
By refreshing rather than replacing existing surfaces, you can help reduce landfill waste and obtain LEED credits — for beautiful designs you can feel good about.

Quick Installation
Reimagine almost any surface with 3M™ Films installed quickly and easily by certified 3M installers and create less downtime, noise and disruption for your clients.

Cost-effective
3M surface finishes are a cost-effective alternative to traditional construction materials, allowing you to leave your design signature on a project.

Easy to Clean & Maintain
Your're designing for durability with surfaces that repair easily and stand up to commonly used cleaners without degradation.

Meet Specifications
We demonstrate our commitment by providing third-party test results when applicable to one of our products.

2026 Quick Ship Patterns

These trendy patterns were selected to have readily available inventory in your local market for faster response to your project needs.

Order completed Shipped from Distributors ▶ **Targeted Site Arrival ≤ 5 business days**

Contact your local 3M distributor or 3M sales representative to learn more about this program and availability of specific patterns for your project.

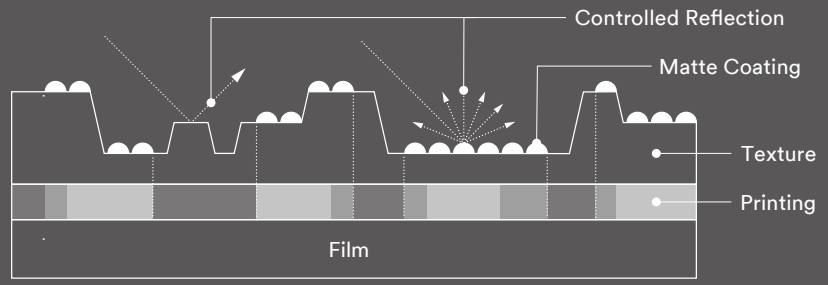
* For projects requiring >5 rolls, or not listed in this sample deck, longer lead times will apply.

Premium Wood - PW



The Premium Wood Series expresses the realistic appearance and texture of natural wood. The controlled reflection of the matte coating technology is combined with both fine and deep wood grain embossing and high-quality printing. This unique technology creates the optimum tone and texture of each species of wood.
